PREFACE

The "consolidated index of Congressional documents" for the second session of the Sixty-third Congress, herewith presented, is the twenty-first in the series prepared in the Office of the Superintendent of Documents in compliance with the requirements of the printing law of January 12, 1895.

The reports and documents included in this index number 3074, divided as follows: Senate reports, 697 (nos. 134–830, of which no. 618 is blank); House reports, 1111 (nos. 93–1203, of which no. 655 is blank); Senate documents, 375 (nos. 247–621, of which no. 535 is blank); House documents, 891 (nos. 292–1182, of which nos. 1089–1098 and 1175 are blank).

Serial number 6550 is assigned to the Senate Journal and number 6551 to the House Journal.

Certain entries in preceding numbers of the Document index, made before the documents were received and based upon what advance information could be obtained from the office of publication, have been found not to correspond with later information or with the documents as finally issued. Corrections should be made in the index proper, the Numerical lists, and the Schedule of volumes for the following cases:

Senate document 1143, Sixty-second Congress, third session, Memoirs of the National Academy of Sciences, volume 12, should be volume 12, part 1.

House document 953, Sixty-second Congress, third session, 29th report of the Bureau of Animal Industry, will not be printed, as this report has been discontinued. The 28th report, for 1911, is the last in this series of reports. Therefore, volume 67, with serial number 6433, and number 953 in the series of House documents will remain blank.

Senate document 214, Sixty-third Congress, first session, is entered in the index as having two parts, which are bound together as volume 4, serial number 6519. A third part was issued after the publication of the index and is bound as volume 4, pt. 2, serial number 6519, vol. 2.
